<(This is an excerpt from the 'Catalogue of religious houses in England and Wales' compiled for Henry VIII in 1534–5. To the extent that they overlap, the version printed by Dugdale is mostly the same as the version printed by Speed (1611); but there are some notable differences. (I do not understand how the total given here was arrived at: by my reckoning, the values reported add up to £5294 6s 2.5d.) Dugdale supplied some annotation of his own: I have printed these additions in blue, to make the distinction clear. (The blue numbers refer to the pages of volume 1.) – C.F. February 2011.>
